Re: Notice of File Closure for Small Mining Activities, Saguarro Mining, LaSal Mill, S/037/080, San Juan County, Utah

Dear Mr. Stevenson:

This letter is to notify you that file #S/037/080, for the LaSal Mill project, located in San Juan County, Utah, will be retired from our files. We received your letter regarding payment of the permit fees on all existing files, wherein you stated that Saguarro Mining was no longer in business.

Division staff inspected the site in October 1998, which revealed that the ponds had been reclaimed and there was no evidence of stockpiles. Tanks remained at the site but were arranged in an area which seemed to be a bone yard. Regrowth in the reclaimed area was essentially a match of the surrounding areas. Therefore, the Division feels this site can be closed at this time.

If you wish to commence any mining related activity in the future, you will need to submit a new notice to the appropriate agency(s), pay the Division permit fees and receive written approval(s) prior to creating any disturbance. If you have any questions or concerns regarding this action, please contact me at (801) 538-5382.

Sincerely,

Doug Jensen
Reclamation Specialist
